EXPERIENCE

CL Infotech Pvt. Ltd - (HASPR Client) | [ReactJs](#), [Javascript](#), [Redux](#)

Frontend Developer

06/2020 - 11/2023

CL Infotech - HASPR Client

- Integral part of the team responsible for designing and developing the user interface and user experience for the Haspr website.
- Focused on creating an intuitive, visually appealing, and responsive frontend using HTML5, CSS3, JavaScript (ES6+), and ReactJs.
- Led the development of reusable and modular UI components, enhancing development efficiency, maintainability, and consistent design patterns.
- Implemented frontend optimization best practices to enhance website performance and loading speed, resulting in improved user satisfaction.

Comment Module - React.js Project

- Led the development and implementation of a comprehensive comment module within a React.js application, improving code readability and maintainability.
- Implemented industry best practices for code documentation using JavaScript comment syntax, facilitating seamless teamwork and knowledge transfer.
- Key contributor to code reviews, receiving positive feedback for improving code comprehension and reducing onboarding time for new developers.

Transactional Dashboard - React.js Project

- Spearheaded the development of a dynamic Transactional Dashboard using React.js, collaborating closely with cross-functional teams for a responsive and user-friendly interface.
- Utilized React.js for building modular and reusable components, integrated RESTful APIs, and implemented data visualization tools for actionable insights.
- Applied state management solutions, such as Redux, ensuring a seamless user experience and contributing to the project's success.

UI Library Development - React.js Project

- Led the conceptualization, design, and development of a reusable UI library in React.js, streamlining UI development across multiple projects.
- Collaborated with UX/UI designers to create a cohesive design system, implemented a range of customizable React components, and utilized Storybook for documentation.
- Conducted usability testing and gathered feedback, improving user satisfaction and development efficiency.

TCS - Tata Consultancy Services

ASE - Assistant Software Engineer

04/2016 - 04/2018

TCS - CIBC

- Spearheaded testing and quality assurance for a complex banking application, ensuring security, accuracy, and reliability.
- Formulated comprehensive test strategies, developed detailed test plans, and orchestrated test data management for various scenarios.
- Contributed to the successful deployment of the application, meeting regulatory compliance and enhancing customer satisfaction.

SKILLS
